Press Release September 10, 2004 – Activities Update

Patric Barry, President of Tiger International Resources, reports:

Tiger International Resources (TGR.V) reports that litigation by Flinders Diamonds against Tiger has ended with Tiger having won against Flinders on Appeal. The trial costs which were awarded against Tiger have been settled for A\$200,000, to be paid within 60 days from August 10th. Since the plaintiff shows in its financial statements that it spent about A\$750,000 litigating against Tiger, we feel the settlement by paying some court costs is a cheap way to end the litigation. Tiger is claiming a portion of these costs from another defendant, and reserves its rights to pursue recovery for damages against the plaintiff company. The holding the company owns of Flinders Diamonds Ltd. Shares is free trading and the company has commenced selling those shares on the open market to replenish working capital. The approximate present value of this holding is A\$520,000.

Tiger's gold project in the Philippines is moving forward. After signing an agreement with the vendor last year Tiger learned that there was a restriction against mining in a watershed, and so we set about supporting the vendor in obtaining an Exemption from that restriction. The authorities have conducted their review and the D.E.N.R in the Philippines, the equivalent of a Mines Department, has endorsed the Exemption, and the latest news is that the Forestry Service has to consider the subject of old growth trees on the site. Since the trees are new growth trees, and since Tiger offers to replant the trees when conducting remediation, we expect the Forestry Department to approve the Exemption very soon. Upon the Exemption being granted, permits must be obtained before underground sampling or bulk sampling is performed. Tiger has appointed legal counsel in the Philippines to review and amend our agreements with the vendor, as necessary, and to ensure we are in compliance with local laws.

Tiger has appointed John J. Geib, C.A., of Calgary as auditor of the Company. The Annual General Meeting of the Company will be held at the offices of the Company 26981 Highwood Circle, Laguna Hills at 8:00 am on October 18, 2004.

Tiger International Resources is a TSX listed Resource Company with **6,852,764** shares on issue and holds a United States SEC 20F Registration. Tiger has interests in the Philippines and Australia.
